# How to Login to Panopto

Panopto, our video and lecture capture software, uses the same authentication as your UWS email and webCampus credentials. You can access your Panopto class videos directly through our designated site or the block posted in the right side column of your webCampus course page.

Option 1: Login at https://uws.hosted.panopto.com/

- Go to https://uws.hosted.panopto.com/ and click the **Sign In** button to the right.
  - o If you are not logged into webCampus, you will be directed to the webCampus login page. Type your UWS credentials into the log in fields and click the **Log in** button. Once you are authenticated, you will be directed back to the UWS hosted Panopto website.

  - o If are logged into webCampus, you will automatically be logged into Panopto.

Option 2: Access Panopto through the Panopto block in your webCampus course

- The Panopto block is located in the right side column of your webCampus course. Live Session, Complete Recordings and Podcast Feeds for your course will appear as links in this block.
  - o To view or listen to a recording, click the title and a new tab will open with the recording.
  - o The Completed Recordings list may be too long to display in the sample picture. Click the **[Show all]** link to view the complete list.
