# Panopto Tip: Subscribing to Course Audio Files in iTunes
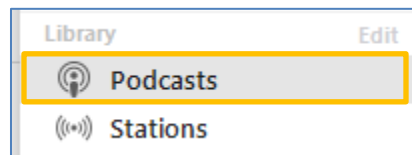

To subscribe to course lectures like a podcast, select the **Subscribe to in iTunes (audio only)** option.

You will be prompted to log in to iTunes and the available lectures will be downloaded as audio files to your iTunes account.

iTunes has a few work flow settings that may hide all but one lecture at a time. To view all available lectures

1. Make sure that **Podcasts** is highlighted in your Library menu.

2. Select **Feed** to view the full list if lectures. Otherwise, the most recently recorded lecture will only display.
